EXPERT INSIGHT — JUNE 2026

100% of night violations are arrivals — runway 03 approach path crosses Lisbon at 160m altitude. **TAP Air Portugal** operated 4,772 flights (50% of total), including 707 at night. Business jets (GIV-SP, Legacy 600) exceeded commercial noise levels — a regulatory gap worth flagging. **Sound meter recalibrated June 22** — readings from June 10–22 were captured at trigger rather than peak, with a 100 dB ceiling; loud events in that window are likely underreported.

Night Violations – Full Detail

LISBON FINALS · JUNE 2026

Regulatory scope: Only night flights (23:00–06:59) are subject to noise restrictions at LPPT. Thresholds are computed dynamically each month — Red = top 10% loudest (≥ 98.6 dB), Yellow = top 25% (≥ 96.4 dB). Daytime loud events are reported separately as informational only.

Hardware note: Sound meter recalibrated June 22 — readings from June 10–22 were captured at trigger rather than peak, with a 100 dB ceiling. Values from June 22 onward reflect the fixed, uncapped sensor.
