EXPERT INSIGHT — MAY 2026

100% of night violations are arrivals — runway 03 approach path crosses Lisbon at 160m altitude. **TAP Air Portugal** operated 4,869 flights (47% of total), including 635 at night. Business jets (GIV-SP, Legacy 600) exceeded commercial noise levels — a regulatory gap worth flagging. **Microphone capped at 100 dB** — new calibrated hardware coming June 2026.

Night Violations – Full Detail

● LISBON FINALS · MAY 2026

Regulatory scope: Only night flights (23:00–06:59) are subject to noise restrictions at LPPT. Thresholds are computed dynamically each month — Red = top 10% loudest (≥ 97.5 dB), Yellow = top 25% (≥ 94.8 dB). Daytime loud events are reported separately as informational only.

⚠ **Hardware note:** Current microphone is technically capped at **100 dB** — actual peak levels may be higher. New calibrated microphone upgrade coming **June 2026**. All values at 99.9 dB should be read as "≥ 99.9 dB".
